VALPRÉ

Our world class spring water spends up to 15 years filtering naturally through the ground before making its way through our bottling process and becoming the Valpré water you know and love. Best served cold for maximum refreshment. The bottling process is designed to ensure that the water is bottled as close as possible to how we found it.

FRANSCHHOEK HILLS

A pure invigorating and refreshing natural spring water, filtered over centuries through the ancient African bedrock in the Cape mountains. Just for you! Our water has a naturally low mineralisation of less than 50mg, making it smoother and lighter very low levels of mineralisation (salt).

STILL WATER, gentle and refined. Ideal to quench thirst on its own. Very good to mix with brandy and whiskey as it does not impact the flavour profile.

SPARKLING, very low levels of mineralisation (salt) and carbonation. Delicate bubble. Soft and graceful. Perfect meal companion due to mellow nature. Enhanced acidity from carbonation is recognised as a classic palate cleanser.

THIRSTI

Sourced from two majestic locations, THIRSTI spring water is rich in mineral goodness and naturally filtered to keep the exact taste that nature intended. This is no ordinary H2O. Our water is different. Our water is special. The tale of our deliciously refreshing water all began on our Normandien farm in the foothills of the majestic Drakensberg mountains, where an extraordinary spring of the purest water flows to the surface, rich in mineral goodness and blessed with a natural pH of 8. THIRSTI expanded operations into the majestic Cape Winelands, where a source of equal purity was discovered in the mountain basin of Tulbagh, surrounded on three sides by the Groot Winterhoek, Witzenberg and Obiqua mountains and drained by the Klein Berg river and its tributaries. Both these sources provide a taste that only nature can master and, our water is filtered, tested and bottled, ready to be enjoyed by you, our extraordinary customers.

ST. PELLEGRINO

St. Pellegrino has made its presence known, thanks to its lively and long-lived bubbles, which feel creamy on the palate, and a slightly salty taste, well-balanced with acidity for an overall refreshing, and thirst-quenching feel.

PERRIER

Perrier is a French brand of natural bottled mineral water captured at the source in Vergèze, located in the Gard department. Perrier is known for its carbonation and its distinctive green bottle. Elegant and refreshing. It has delighted generations of beverage seekers, with its blend of bubbles and balanced mineral content for over 150 years. Originating in France, its effervescent spirit is known worldwide. It also offers a great alternative to carbonated soft drinks, with no sugar and zero calories. Perrier is thirst-quenching on its own, but its crisp carbonation makes it the perfect partner for cocktails and drink recipes.

FIJI ARTESIAN

From a sustainable ancient artesian aquifer in Fiji to more than 60 countries across the globe, FIJI Water has been bringing Earth's Finest Water to the world since 1996. Along the way, its philanthropic efforts have focused on improving the lives of the people of Fiji and protecting the unique place they call home. FIJI Water is bottled at the source on the Fijian island of Viti Levu. As it slowly filters through ancient volcanic rock, it gathers the minerals that create its soft, smooth taste. There's nothing on earth quite like it.

EVIAN

It's a uniquely sourced spring water that's always refreshing and naturally hydrating, with nothing added for taste or enhanced with extras - so you can reach your natural peak. Evian has a salted taste due to it being very hard water and mineral rich. There are much harder waters on the market, but Evian has a more recognizable taste. Seen that Evian is hard water, it can quickly quench your thirst.
